### Battery Storage Options

NUMBER AND TYPE OF BATTERIES	HOUSE BANK(S)	_____
	ENGINE / GENERATOR BANKS	_____
	OTHER	_____
LOCATION(S) OF BATTERY BANKS	_____	
	_____	

All batteries will be charged and load tested prior to starting storage regimen. This testing is charged in addition to the storage charges. A positive load test does not guarantee against failure of individual or groups of batteries. Safe Harbor New England Boatworks LLC does not intend these services as a warranty of continued performance.

In case of Lithium Ion Batteries please meet with our mechanical department manager to discuss options for battery maintenance.

For heavy batteries (4D and up) batteries requiring specific charging parameters set up on boats equipment, we recommend leaving batteries on board for monthly charging.

- ( ) NEB remove and install batteries T&M  
Store @ \$75 each # \_\_\_\_\_ \$ \_\_\_\_\_
- ( ) Monthly charge on Board T&M
- ( ) Charge once on board and disconnect. Reconnect and check in spring. T&M
- ( ) Battery Storage only-Owner to remove batteries and bring to mechanics shop during regular working hours. Pick up in spring to be prearranged. Store @ \$75 each # \_\_\_\_\_ \$ \_\_\_\_\_

Please be advised that successful load testing prior to off season storage along with the chosen maintenance program selected, is not a guarantee of battery condition when commissioned. Please contact our office at: 401-683-6110 for answers to any questions you may have.
